SAN FRANCISCO BAY REGION

ORDER NO. 80-58

LAS GALLINAS VALLEY SANITARY DISTRICT  
MARIN COUNTY

ORDER GRANTING ADDITIONAL DISCHARGES TO THE  
DISTRICT'S SEWER SYSTEM PURSUANT TO CEASE  
AND DESIST ORDER NO. 80-39, AS AMENDED BY  
ORDER NO. 80-43

The California Regional Water Quality Control Board, San Francisco Bay Region, finds that:

1. On April 15, 1980, this Board adopted Order No. 80-22, an NPDES (National Pollutant Discharge Elimination System) Permit prescribing waste discharge requirements covering the discharge of waste and pollutants by the Las Gallinas Valley Sanitary District (Hereinafter discharger).
2. On August 5, 1980, this Board adopted Order No. 80-39, an Order requiring the discharger to cease and desist from discharging waste contrary to requirements prescribed in Order No. 80-22. Furthermore, this order prohibited additional discharges to the discharger's sewer system.
3. On September 16, 1980, this Board adopted Order No. 80-42, revising waste discharge requirements contained in Order No. 80-22, and Order No. 80-43, amending Order No. 80-39 requiring the discharger to cease and desist from discharging waste contrary to requirements prescribed in Order Nos. 80-22 and 80-42.
4. Order No. 80-39, as amended by Order No. 80-43, provides for partial removal of the prohibition of additional discharges and the allowance of a specified number and type of additional discharges to the sewer system when the discharger demonstrates to the Board that it has achieved and completed certain specified tasks which represent substantial progress in meeting waste discharge requirements.
5. The discharger has documented that it has secured the necessary local share of funds necessary to construct a project designed to comply with requirements contained in Order No. 80-22 and Order No. 80-42. The discharger has also documented that it has endorsed one facilities plan, and is working to develop an alternate plan which appears more acceptable to neighboring landowners. These actions represent a measure of substantial progress towards elimination of actual and threatened violations of waste discharge requirements.

6. On December 2, 1980, starting at 9:45 a.m., the California Regional Water Quality Control Board, San Francisco Bay Region, after due notice, held a panel hearing under provisions of Water Code Section 13301 regarding the discharge of waste and pollutants by the Las Gallinas Valley Sanitary District.
7. Upon the basis of evidence received, the hearing panel recommended the Board grant additional discharges to the Las Gallinas Valley Sanitary District's sewer system pursuant to Cease and Desist Order No. 80-39, as amended by Order No. 80-43.

IT IS HEREBY ORDERED THAT the prohibition of additional discharges to the sewer system as provided in Order Nos. 80-43 and 80-39 is partially removed and the Las Gallinas Valley Sanitary District is allowed additional discharges to the sewer system sufficient to serve those proposed projects for which the discharger has received and processed all documents required by the discharger for issuance of a sewer connection permit prior to December 2, 1980.
